# EQUALIZER FOLIAR 5% ZINC

Proprietary Agrodyne Foliar Crop-Response System

*Visible response above the leaf.  
Better nutrition. Better performance.*

## LEAF PENETRATION

Advanced technology helps maximize leaf entry.

## MINERAL DELIVERY

Chelated zinc for efficient uptake and foliar nutrition.

## NATURAL EXTRACT SUPPORT

Plant-based extracts to support leaf health and function.

## AGRODYNE SIGNALING TECHNOLOGY

Proprietary signaling to support crop response and performance.

# EQUALIZER FOLIAR 5% ZINC

Equalizer Foliar 5% Zinc is a proprietary Agrodyne multi-part foliar crop-response system designed to support zinc nutrition, efficient delivery, leaf penetration, natural extract support, and visible crop performance across foliar programs.

## USE RATE & APPLICATION

1 pint to 1 gallon per acre per application. Apply by ground or air in foliar programs.

## PROGRAM COMPATIBILITY

Built to work with your program. Blend-friendly with many foliar nutrients and crop protection products. Jar test before use.

## WHY ZINC?

Zinc supports key plant processes tied to growth, leaf function, and visible crop performance.

*Powered by a balanced, four-part system that works together to improve zinc nutrition and deliver visible crop response.*
