ZINKL

**ZINC + NICKEL
FOLIAR SYSTEM**

ZINKL is a proprietary blend of zinc and nickel developed to support efficient nutrient delivery and visible crop response. Designed for broad-acre row crops, nut crops, and specialty crops, **ZINKL** is a valuable addition to your foliar nutrition program—especially in nickel-sensitive cropping systems.

**USE RATE &
APPLICATION**

Use 8–16 fl oz per acre.
Apply as a foliar spray
in sufficient water for
thorough coverage.

**PROGRAM
COMPATIBILITY**

Blendable with most
crop protection products
and nutrients. Always
perform a jar test.

**NICKEL
ADVANTAGE**

Nickel plays a key role in
urease activity and overall
plant function—especially
in nickel-sensitive crops
like pecans.

**VERSATILE
PERFORMANCE**

Ideal for row crops,
nut crops, and specialty
crops as part of a
balanced foliar nutrition
program.
